## Becoming a Member of Our Union

Becoming a member of our union is simple. Just request a membership enrollment form from the [union secretary](#), fill it out using a black pen (pressing hard on the quadruplicate form) and submit it to us at the campus mail address attached to the form.

If you are an agency fee payer, we urge you to get a member enrollment form so that you can begin enjoying the benefits of being a union member. Becoming a dues-paying member of the union costs you no more than you are already paying as an agency fee payer. Every Associate Faculty colleague pays the same monthly amount to cover the costs of the union representing all Associate Faculty.

## The Benefits of Union Membership

Union members, but not agency fee payers, get certain benefits, such as being eligible to run for or vote for union officers, being eligible to vote in contract ratifications, having a \$1,000,000 liability insurance policy that can be used if a student sues in a work-related matter, getting discounts on other services as well.

It's a no-brainer. Members pay the same as agency fee payers, but members get benefits that fee payers do not.

Our goal is to achieve 100% union membership. Your membership makes our union stronger and it helps all of your colleagues to enjoy better working conditions.

It takes just a few minutes to fill out the form and send it back. Please request a form today from our [secretary](#).
